

Dmitrii Chukhnin

+66 (93) 218-49-20 | chuhnnindmitry@gmail.com | LinkedIn: [dmitrychukhnin](#)

Frontend Developer with 6+ years of experience building web applications and Web3 products, focused on performance, UX, and business impact. Experienced in technical leadership, mentoring, and coordinating distributed teams.

EXPERIENCE

EMCD, ecosystem for mining and operations with crypto

Remote

Frontend developer

01/2025-Present

- Led frontend development of several fintech web apps, designing SPA architecture in TypeScript with React and Vue, including complex dashboards and analytics pages.
- Delivered a production-ready MVP for a Telegram Mini App (React) and extended it with API integrations, custom charts, and performance optimizations (throttling, memoization).
- Migrated a large legacy SPA from Vue 2 to Vue 3, fully rewriting the UI kit, refactoring state management (Vuex/Pinia and context-inspired patterns) and cleaning up legacy code to improve maintainability.
- Took on an informal Frontend Lead role: drove code review and documentation process, led redesign rollout to production, coordinated with product, backend, QA and designers to clarify requirements and ship features on time.

Wanted Verse Ltd, Web3 Gaming Platform

Remote

Frontend developer

08/2024-01/2025

Led frontend development of Web3 game tradeupdown.com (Telegram Mini App)

- Implemented Web3Auth-based authentication with single-factor and OpenLogin flows.
- Enhanced smart contract interactions using Viem.
- Developed advanced trading charts using PixiJS and expanded UI component library.
- Integrated i18n for internationalization, Sentry for error tracking, and PostHog for analytics.

SCOUT SERVICE LLC, E-commerce Platform

Remote

Frontend developer

11/2023-08/2024

Led development of the scout-parts.ru e-commerce platform from scratch to production

- Built and launched a Nuxt 3 (SSR) e-commerce platform handling 100+ daily orders with integrated delivery and payments.
- Designed REST API contracts for product search, filtering, and order flows with the backend team.
- Developed an admin panel with Nuxt UI and Tailwind to manage catalog, orders, and content.

DreamFlat FZ LLC, An interior design platform

Remote

Frontend developer

11/2022-11/2023

Developed the frontend for dreamflat.design

- Migrated the platform from Quasar to Nuxt 3, improving SEO and performance scores by 50% according to Lighthouse.
- Integrated multiple payment systems (Alfa, PayPal, NGenius) and promotional code system.
- Developed admin dashboard for large-scale data management.

OTHER EXPERIENCE

Junior Team Lead/Teacher, IT School Hello World, EdTech (2020-2022)

Remote

Conducted 2,000+ lessons on frontend and Python and trained 30+ employees in corporate programs. Taught development with React, Vue.js, Electron.js and game creation using PixiJS and Phaser.

Frontend Developer, Web Studios (2018-2020)

Remote

Developed and launched 10+ commercial projects.

EDUCATION

International Institute of Design and Service | Chelyabinsk, Russia | Applied Mathematics and Computer Science, Programming Systems | Associate Degree | 2016-2020
